FAÇADE

Beautify the Appearance of Your Building's Façade and Protect Your Capital Investment.

- Ideal choice for high-profile architectural applications where long-term aesthetics are a priority
- Typical two-coat system provides a long lasting coating that retains color and gloss longer than conventional paints
- The ultra-long lifespan allows for a lower installation cost per square foot by outlasting conventional paints by two to three times
- Fluoropolymer technology offers reduced maintenance costs by resisting chalking, repelling surface dirt and reducing cleaning cycles

- Durable finishes which are resistant to marring and abrasion while providing excellent gloss and color retention
- High-performance coatings require little maintenance and can be easily cleaned with mild detergents
- Cures chemically into a durable, inert coating system to attain bright, vivid colors including metallic, and a wide range of gloss levels
- Formulated to provide ultimate resistance to weathering and ultraviolet degradation
- Receive material and labor warranty

Unparalleled service with coating strength, endurance and beauty.
